SUMMARY

Versatile full-stack developer eager to learn new programming languages and frameworks. Self-motivator able to help and inspire others to overcome challenges. Passionate about designing UI/UX with clean code, software testing to polish a platform, and accessibility for screen readers.

WORK EXPERIENCE

Full-Stack Developer Intern at NeighborNosh Inc., Los Angeles, CA

April 2018 – Present

- Redesign the client-vending UI for contract jobs using React.js, Material-UI, and CSS.
- Collaborate in debugging Node.js back-end with CTO to vend 100+ products per event.
- Develop Noshware website with React.js, Node.js, and CSS for clients to rent custom machines.

TECHNICAL AND SOFT SKILLS

Front-end: JavaScript, React.js, Redux, ES6, Material-UI, AJAX, jQuery, HTML5, CSS.

Back-end and Deployment: Node.js, Express.js, Python, Heroku, Chai, Mocha, Enzyme, JWT.

Database: Mongoose, MongoDB, PostgreSQL, mLab, Amazon S3

Other Programming Technologies: a11y, Android SDK, Linux, React-Native, RESTful APIs, Git, GitHub, BitBucket, TravisCI, Trello, Jira, NPM, Webpack, Yarn, Babel, Flask, Docker

Communication and Leadership: Agile/Scrum Methodology, Self-Motivation, Capability to Learn Fast, Mentoring, Decision Making, and Public Speaking.

FULL-STACK DEVELOPER PROJECTS

HexClothes (in production) | [GitHub-Client](#) | [GitHub-Server](#)

React.js, Redux, Node.js, Express.js, MongoDB, Mongoose, Chai, Mocha, mLab, JWT, TravisCI, Bcrypt, Passport, CSS

HexClothes is a React full-stack app for users to create outfits with complimentary colors based on their skin tone. RESTful APIs were made and tested with Express.js, Chai, and Mongoose.

Captains Log | [GitHub](#) | [Demo](#)

Node.js, Express.js, MongoDB, Mongoose, Chai, Mocha, mLab, JWT, TravisCI, Bcrypt, Passport, CSS, HTML, Heroku Deployment

Captains Log is a Node.js full-stack app to allow users to journal their vacations. Vacations are customized RESTful APIs stored in mLab database.

BeTenacious | [GitHub](#) | [Demo](#)

AJAX, jQuery, a11y, Responsive Web Design, CSS, HTML

BeTenacious is an interchangeable app for users to search for workouts, recipes, and restaurants to manage their nutrition and fitness goals. Third party APIs integrated are Wger Workout API and YouTube Video Search API.

EDUCATION AND CERTIFICATION

Thinkful Flexible Full-Stack Web Development Program December 2018

University of California Los Angeles, June 2017

Bachelors of Arts; Cumulative GPA: 3.113, Major GPA: 3.54
