SUMMARY

Versatile client-side and server-side developer eager to learn new programming languages. Self-motivator able to inspire others to overcome challenges. Passionate about enhancing UI/UX with clean code and accessibility for screen readers.

WORK EXPERIENCE

Full-Stack Developer Intern at NeighborNosh Inc., Los Angeles, CA April 2018 – Present

- Update the UI and Back-end of Android consumer app with React Native and React.js.
- Redesign the client-vending UI for a partnership with Hulu using Material-UI.
- Cooperate in debugging Node.js and Linux back-end with development team.

TECHNICAL AND SOFT SKILLS

Front-end: JavaScript, React.js, Redux, JSX, ES6, Material-UI, AJAX, jQuery, HTML5, CSS.

Back-end and Deployment: Node.js, Express.js, Heroku, Chai, Mocha, Enzyme, Bcrypt, Passport.

Database: Mongoose, MongoDB, mLab.

Other Programming Technologies: a11y, Android SDK, Linux, React Native, Git, GitHub, BitBucket, TravisCI, NPM, RESTful APIs.

Communication and Leadership: Agile Methodology, Self-Motivation, Capability to Self-Learn, Mentoring, Decision Making, Public Speaking.

FULL-STACK DEVELOPER PROJECTS

HexClothes (in production) | [GitHub-Client](#) | [GitHub-Server](#)

React, Redux, Node.js, Express.js, MongoDB, Mongoose, Chai, Mocha, mLab, JWT, TravisCI, Bcrypt, Passport, CSS, JSX

HexClothes is a React full-stack app for users to experiment with color clothing based on an array of skin tones. RESTful APIs were made with Node.js, Express.js, Chai, and Mongoose.

Captains Log | [GitHub](#) | [Demo](#)

Node.js, Express.js, MongoDB, Mongoose, Chai, Mocha, mLab, JWT, TravisCI, Bcrypt, Passport, CSS, HTML, Heroku Deployment

Captains Log is a Node.js full-stack app to allow users to journal their vacations. Vacations are customized RESTful APIs stored in mLab database.

BeTenacious | [GitHub](#) | [Demo](#)

AJAX, jQuery, a11y, Responsive Web Design, CSS, HTML

BeTenacious is an interchangeable app for users to search for workouts, recipes, and restaurants to manage their nutrition and fitness goals. Third party APIs integrated are: Wger Workout API, YouTube Video Search API, Meetup API, and Zomato Restaurant API.

EDUCATION AND CERTIFICATION

Thinkful Flexible Fullstack Web Development Program November 2018

University of California Los Angeles, June 2017

Bachelors of Arts; Cumulative GPA: 3.113, Major GPA: 3.54
